certifies that the change in the type design for the following product with the limitations and conditions therefore as specified hereon meets the airworthiness requirements of Part 73 of the * Regulations.

Original Product—Type Certificate Number: * See attached Federal Aviation Administration (FAA)
Make:
Model: Approved Model List (AML) SR02270SE for approved rotocraft models and applicable airworthiness regulations

Description of the Type Design Change: Fabrication and installation of Geneva Aviation Audio System per Geneva Aviation Master Drawing List as listed on AML SR02270SE. This modification must be inspected and maintained in accordance with the FAA-accepted Instructions for Continued Airworthiness (ICA) as listed on AML SR02270SE.

Limitations and Conditions: Approval of this change in type design applies to the rotocraft listed on AML SR02270SE only. This approval should not be extended to other rotocraft of this model on which other previously approved modifications are incorporated, unless it is determined that the relationship between this change and any of those other changes in type design will introduce no adverse effect upon the airworthiness of that rotocraft. Rotocraft modified in accordance with this supplemental type certificate must be operated in accordance with a copy of the FAA-approved Rotocraft Flight Manual Supplement (RFMS) as listed on AML SR02270SE. A copy of this certificate, the AML, the MDL, the RFMS, and the ICA must be maintained as part of the permanent records of the modified rotocraft.

If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.
